Who should attend?

This course is ideal for anyone who needs an executive-level understanding of the business benefits and requirements of implementing a QMS. These include:

- senior managers seeking an overview of a QMS within the context of their organisation
- employees wishing to understand the effects of ISO 9001 on the day-to-day running of their department

For those who would like a more advanced knowledge around ISO 9001, we offer a full programme of [ISO 9001 training courses](#), including a more in-depth overview of ISO 9001, as well as internal auditor, lead auditor and implementation training.

Key topics

Key topics on this course include:

- business benefits of implementing a quality management system
- scope and purpose of the ISO 9001 standard for a QMS
- structure of the framework for QMS
- what ISO 9001 means for your organisation
- addressing risks and opportunities through 'risk-based thinking'

- understanding the process-based approach for developing, implementing and improving the effectiveness of a QMS
- required documentation, such as written records, policies and measurements
- leadership roles and responsibilities

Skills gained

By the end of this course, attendees will have gained key knowledge to help them make decisions about implementing and managing a QMS, with the aim of improving processes, reducing costs, raising quality, and increasing customer satisfaction.

Hyphen

The tutor was excellent and made the presentation engaging and informative.

RSHP

The tutor was brilliant. I cannot fault the way he made everyone feel at ease during the course, his exceptional knowledge and the way he brought ISO 9001 into every day life scenarios.

Aqualisa Products Ltd

The course content was easy to follow and was presented and explained well by the tutor. The exercises kept it interactive and allowed me to see how to apply the standard in the real world.
